PLANT AND SOIL

International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases.

Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.

Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.

Issued under the auspices of the

"Koninklijk Genootschap voor Landbouwwetenschap"

(*Royal Netherlands Society of Agricultural Science*)

Executive Editors: D. I. Arnon, Berkeley; J. Baeyens, Louvain; G. W. Harmsen, Groningen; E. G. Mulder, Wageningen; A. C. Schuffelen, Wageningen; F. Steenbjerg, Copenhagen.

Secretary: G. H. Arnold

Assistant Secretary: J. K. Smit

c/o Institute for Soil Fertility

Groningen, Netherlands

Consulting Editors; Wm. A. Albrecht, Columbia, Mo.; C. Arnaudi, Milan; L. Gisiger, Liebefeld-Berne; F. G. Gregory, London; A. J. de Groot, Groningen; W. R. C. Handley, Oxford; J. L. Harley, Sheffield; J. den Holder, Ghent; J. Lavollay, Paris; L. Leyton, Oxford; W. J. Lütjeharms, Bloemfontein; H. Lundegårdh, Uppsala; E. Melin, Uppsala; M. Ødelien, Ås; E. J. Petersen, Copenhagen; C. S. Piper, Adelaide; D. Snow, Reading; H. G. Thornton, Harpenden, Herts.; S. Tovborg Jensen, Copenhagen; A. I. Virtanen, Helsinki; S. A. Waksman, New Brunswick; F. W. Went, St. Louis; L. K. Wiersum, Groningen.

The Editors are - if necessary - advised by experts from the Staff of the Institute for Soil Fertility, Groningen

Druk: Koninklijke Drukkerij Van de Garde N.V., Zaltbommel

Plant and Soil

INTERNATIONAL JOURNAL OF PLANT NUTRITION,
PLANT CHEMISTRY, SOIL MICROBIOLOGY AND
SOIL-BORNE PLANT DISEASES

VOLUME XXVIII

CONTENTS — TABLE DES MATIÈRES — INHALT

PAGE

A. A. Abd El Rahman and M. H. Sharkawi, Effect of salinity and water supply on olive 280

Rafiq Ahmad, The mechanism of salt tolerance in *Suaeda fruticosa* and *Haloxylon recurvum* 357

W. A. Ayers and R. H. Thornton, Exudation of amino acids by intact and damaged roots of wheat and peas 193

G. G. I. Bange, A comparison of the effect of calcium and magnesium on the separate components of alkali cation uptake in excised barley roots 177

B. F. Bland, Nitrogen contribution from the soil for herbage growth 217

J. R. Brown and L. R. Frederick, *Short communication.* Decomposition of the water-soluble fraction of sudangrass residue in soil 467

P. F. Brownell, *Short communication.* Sodium as an essential micronutrient element for some higher plants 161

N. G. Cassidy, The effect of cyclic salt in a maritime environment. I. The salinity of rainfall and of the atmosphere . . 106

N. G. Cassidy, The effect of cyclic salt in a maritime environment. II. The absorption by plants of colloidal atmospheric salt 390

I. I. Chaudhuri and H. H. Wiebe, Influence of calcium pretreatment on wheat germination on saline media 208

D. R. Cullimore, *Short communication.* Notes on an inhibition effect on soil algae during assay for phosphorus using Tchan's method 460

P. Delver and A. Post, Influence of alder hedges on the nitrogen nutrition of apple trees 325

J. F. Dormaar, Extraction of organic phosphorus in Chernozemic soils 268

E. B. Dumbroff, *Short communication.* Some observations on the effects of nutrient supply on mycorrhizal development in pine 463

H. W. Fassbender and L. A. Laroche, The nutritive potentials of soil and the proportions of K : Ca : Mg in tomato plants 431

B. R. Funke and J. O. Harris, Early respiratory responses of soil treated by heat or drying 38

Ellis Griffiths and R. G. Burns, *Short communication.* Effects of gamma irradiation on soil aggregate stability . . . 169

Umesh C. Gupta, Studies on the O-phenanthroline method for determining iron in plant materials. 298

T. C. Hutchinson, A physiological study of *Teucrium scorodonia* ecotypes which differ in their susceptibility to lime-induced chlorosis and iron-deficiency chlorosis 81

D. Jones and D. M. Webley, A new enrichment technique for studying lysis of fungal cell walls in soil 147

S. U. Khan, A. W. Moore and G. R. Webster, *Short communication.* Influence of partial soil sterilization on nodulation of alfalfa 476

H. Knight, *Short communication.* The effect of logging and slashburning on the nutrient content of Douglas fir . . . 471

Jarmila Kubíková, *Fusarium oxysporium* (Schlecht.) Snyd. et Hans. – A dominant fungus species on the root-surface of woody plant seedlings 306

Sanat K. Majumder, Morphogenetic responses of tomato plants to combined and individual applications of gibberellic acid, Phosfon and B-nine 291

U. Marckwordt, *Short communication.* Magnesium-extractable caesium in soils and caesium uptake by plants 372

Giles M. Marion, John V. Berglund and Albert L. Leaf, Morphological and chemical analyses of red pine (*Pinus resinosa Ait.*) buds. Their relationships to tree growth on a K-deficient to nondeficient site continuum 313

. E. MARTIN and P. J. ROSS, A nitrogen balance study using labelled fertilizer in a gas lysimeter 182

. N. MEHROTRA, N. S. SINHA and R. D. I. SRIVASTAVA, Studies on the nutrition of Indian cereals. II. Uptake of nitrogen and phosphorus at different stages of growth by early paddy (unhulled rice) under varying fertilizer management 422

. MINDERMAN and K. W. F. LEEFLANG, The amounts of drainage water and solutes from lysimeters planted with either oak, pine or natural dune vegetation, or without any vegetation cover 61

. N. MUNNS, Nodulation of *Medicago sativa* in solution culture. I. Acid-sensitive steps 129

. N. MUNNS, Nodulation of *Medicago sativa* in solution culture. II. Compensating effects of nitrate and of prior nodulation 246

. M. MUSA, Nitrogenous fertilizer transformations in the Sudan Gezira soil. I. Ammonia volatilization losses following surface applications of urea and ammonium sulphate . . . 413

ARGARET G. MYERS and J. W. MCGARITY, The urease activity in profiles of five great soil groups from northern New South Wales 25

. Z. NOWAKOWSKI, *Short communication*. The effect of a nitrification inhibitor on the concentration of nitrate in grass during growth 165

. T. OSWALD and H. A. FERCHAU, Bacterial associations of coniferous mycorrhizae 187

. W. PAULI, The influence of the different members of a crop-rotation system on the biodynamics of soil 375

. K. RAMACHANDRA REDDY, Plant treatment in relation to the rhizosphere effect. I. Pretreatment of roots of rice seedlings to certain chemicals and antibiotics on the rhizosphere microflora 347

. R. C. REYNOLDS and L. TER VEER, *Short communication*, Water-potential control by colloidal gels 158

. J. ROSS, Some observations on the oxidation of glucose by enzymes in soil in the presence of toluene 1

F. SCHEFFER, R. KICKUTH und R. ALDAG, Aufnahme und Metabolisierung von C^{14}-Methylamin und DL-N-C^{14}-Methyl-Valin durch *Helianthus annuus* L. 442

F. SCHEFFER, R. KICKUTH und E. SCHLIMME, Aufnahme und Metabolisierung radiculär angebotenen Indols durch *Sinapsis alba* 453

D. A. VAN SCHREVEN, Mineralization of the carbon and nitrogen of plant material added to soil and of the soil humus during incubation following periodic drying and rewetting of the soil 226

P. F. SHEA, G. C. GERLOFF and W. H. GABELMAN, Differing efficiencies of potassium utilization in strains of snapbeans, *Phaseolus vulgaris* L. 337

J. N. SINGH and D. P. SINGH, Studies in the mineral nutrition of Japanese mint. I. Influence of phosphorus deficiency on nitrogen metabolism 363

ABRAM A. STEINER, Apparatus for the measurement of oxygen consumption by the root system of a plant 173

N. S. SUBBA-RAO and K. S. B. SARMA, Pectin methyl esterase activity of root exudates of legumes in relation to rhizobia 407

V. N. VASANTHARAJAN and J. V. BHAT, Interrelations of microorganisms and mulberry. II. Phyllosphere microflora and nitrogen fixation in leaf and root surfaces 258

A. R. WEINHOLD and TULLY BOWMAN, Selective inhibition of the potato scab pathogen by antagonistic bacteria and substrate influence on antibiotic production 12

W. A. WILLIAMS, D. S. MIKKELSEN, K. E. MUELLER and J. E. RUCKMAN, Nitrogen immobilization by rice straw incorporated in lowland rice production 49
